Innovations

THE WORLD OF MOBILE LIVING IS CONSTANTLY EVOLVING, AND ADRIA HOME CONTINUES TO LEAD THE WAY. FROM NOW ON, WE ARE DIVIDING OUR PRODUCT INNOVATION SEGMENTS INTO MEDITERRANEAN AND CONTINENTAL LINES.

MEDITERRANEAN

Solutions designed for carefree summer moments by the sea – sustainable, spacious, and tailored to modern tourism.

MOBILE HOMES AND GLAMPING TENTS FOR TOURISM AND SEASONAL USE

In Mediterranean markets, where tourism is focused on seasonal rentals, key factors in choosing mobile homes and glamping tents are attractive design, optimal use of space, and durability in coastal conditions.

Adria Home offers solutions tailored to the needs of campsites and resorts looking to increase occupancy, improve guest comfort, and optimize operational efficiency. Our models combine modern aesthetics, sustainable materials, and smart floorplans that allow for quick setup and high investment returns.

CONTINENTAL

Solutions built to withstand demanding weather conditions, offering maximum energy efficiency and year-round comfort.

MOBILE AND MODULAR HOMES FOR ALL-SEASON LIVING

In continental markets, where mobile and modular homes are used in tourism, the “second home” segment, or as permanent residences, key criteria include insulation, energy efficiency, and long-term durability.

Adria Home develops solutions that meet the strict building and environmental standards of central and northern Europe, including high energy efficiency (e.g., low-energy standards). Our products offer flexible floorplans, sustainable materials, and innovative technological solutions that meet the demands of investors and operators of tourism and residential complexes.
